Deliver value with MIRE

Elevate your game with IBM

- Double your bid volume, not your workload
- Driving up to 30% higher win rates
- Drive up to a 60% reduction in cost per bid
- Boost ROI by 20%+
- Unlock up to 25%+ more profit per deal

MIRE is built on IBM's industry-leading watsonx and hybrid-cloud automation technologies. These platforms continue to evolve and improve.

MIRE - How does it work?

- 1 MIRE leverages agentic AI and workflow automation to orchestrate the efficient distribution of tasks to the appropriate roles in the organization
- 2 MIRE employs digital workers to understand the RFP, recommends the best products for the requirements, answers the questions and composes the response.
- 3 MIRE gets your subject matter experts involved to review and approve the tasks completed by the digital workers.
